Notes to the Semi-Annual report as at August 31, 2023

Note 1: Information on matters of particular economic or legal importance

On 19 March 2023, Credit Suisse Group AG and UBS Group AG signed a merger agreement, which was completed as of 12 June 2023. The Fund uses several of the services of and has banking relationships with consolidated subsidiaries of Credit Suisse Group AG and UBS Group AG. These relationships and service providers may change in the future.

Note 2: Sales restrictions

When units of the sub-funds are issued and redeemed abroad, the provisions of investment fund and tax law applicable in that country apply.

Units of this investment fund may not be offered, sold or distributed within the United States and its territories. Units of this investment fund may not be offered, sold or distributed to citizens of the United States or to persons domiciled or resident in the United States and/or to other natural persons or legal entities whose income and/or proceeds are subject to US income tax regardless of their origin, or to persons who qualify as US persons under Regulation S of the US Securities Act of 1933 and/or the US Commodity Exchange Act, as amended.

Units of CSIF (CH) Equity Emerging Markets Blue and CSIF (CH) Equity Emerging Markets ESG Blue may not be offered, sold or distributed to investors resident or domiciled in India. Furthermore, units of CSIF (CH) Equity Emerging Markets Blue and CSIF (CH) Equity Emerging Markets ESG Blue may not be offered, sold or distributed within India. Investors in CSIF (CH) Equity Emerging Markets Blue and CSIF (CH) Equity Emerging Markets ESG Blue may be required to disclose their identity to the Designated Depository Participant ("DDP").

Units of the sub-funds CSIF (CH) Bond Aggregate Global ex G4 ex CHF, CSIF (CH) Bond Aggregate Global ex CHF 1-5 Blue, CSIF (CH) Bond Fiscal Strength Global ex CHF Blue, CSIF (CH) Bond Aggregate Global ex CHF 1-5 ESG Blue and CSIF (CH) Bond Aggregate Global ex CHF 1-5 ESG Blue may not be offered or sold to persons or companies in the People's Republic of China ("PRC"). Furthermore, units of these sub-funds may not be distributed within the PRC. Investors in the PRC will only subscribe to units of these sub-funds if they are permitted to do so under applicable PRC laws, regulations, rules, notices, guidelines, and/or orders, or other regulatory requirements issued by a government agency or supervisory authority in the PRC, regardless of whether or not they are effective by law. If an investor fails to comply with these sales restrictions, the Fund Management Company may, at its discretion, take measures with respect to the units of such investor in order to comply with the relevant regulatory requirements, including the obligation to redeem units of the relevant investor in accordance with Section 5 of the Fund Contract. The Fund Management Company and the Custodian Bank may prohibit or restrict the sale, brokerage or transfer of units with respect to natural persons or legal entities in certain countries and territories.

[1] The fund management company has not concluded any fee-sharing agreements or agreements concerning retrocessions in the form of so-called "soft commissions". The index license fees recorded under management fees in the first half of the year 22/23 were reclassified as other expenses. This results in the ex-post calculated management commissions being reported lower than the effective value. This reclassification has no impact on the TER.

[2] The TER (total expense ratio) refers to the sum of all periodically levied costs and commissions charged to the fund assets retrospectively as a percentage of the average fund assets. Any rebates/portfolio maintenance commissions from target funds were credited to the fund and thus reduce the TER. The maximum management commission of the target funds is 3%.

[3] The PTR (Portfolio Turnover Rate) is considered an indicator of the relevance of the incidental costs incurred by the fund when buying and selling investments and denotes the turnover rate of the fund portfolio. The PTR (Portfolio Turnover Rate) is considered an indicator of the relevance of the incidental costs incurred by the fund when buying and selling investments and denotes the turnover rate of the fund portfolio.

[4] Aggregated TER, as more than 10% of net assets were invested in other collective investment schemes (target funds) as of the reporting date. The TER of the target funds can also be obtained from KIIDs, etc. The maximum management commission of the target funds is 3%.

[1] Fund performance is based on official published net asset values, which are based on the stock market closing prices at the end of the relevant month. Historical performance is not an indicator of current or future performance. Performance data exclude commissions and expenses charged on the issue and redemption of units.

The tracking difference between the Fund's performance and the performance of the replicated index is primarily due to the following factors: Fees charged in connection with management of the Fund, the use of optimised sampling, income arising from securities lending, currency hedging costs, non-recoverable foreign withholding tax and transaction costs.

Note 7: Direct and indirect operational costs and fees from securities lending
Principle borrower setup with Credit Suisse (Switzerland) AG. as borrower and Credit Suisse Funds AG - acting on behalf of the sub-funds that generate income from securities lending – as lender. Until April 30, 2023, 60% of the income generated from securities lending is credited to the fund. From May 1, 2023, 80% of the income generated from securities lending is credited to the fund.

Note 8: Portfolio composition
The composition of the portfolio shows portfolio changes without fractions. This may lead to rounding differences in the calculation of the total.

Note 9: Real Estate Investment Trust (REIT)
Income from real estate investment trusts (REITs) is considered fund income for tax purposes and is reported separately accordingly.

Note 10: Off-balance sheet transactions (commitment approach I)
For currency derivatives, only the net sale requires covering, therefore only the sell side (net) is shown in off-balance sheet transactions as exposure reducing derivatives.

Note 11: Sub-funds or unit classes launched during the year – presentation of comparatives
Information on the statement of assets and income of sub-funds or unit classes launched during the current reporting period is shown with zero values in the previous period.
The following unit classes were activated, or deactivated due to redemptions of the entire current portfolio.

Note 12: Valuation of the fund assets and units
1. The net asset value of a sub-fund and the share of each classes (quotas) are calculated at fair value at the end of the accounting year in the unit of account of the corresponding sub-fund at a minimum for each day on which units are issued or redeemed (see Section 17 Article 1) and on the last weekday (Monday-Friday) of each month. For days on which 25% or more of the investment markets are closed (e.g. bank and stock exchange holidays), the calculation of the assets of the corresponding sub-fund may be suspended, unless it is the last weekday (Monday-Friday) of each month.
2. Investments traded on a stock exchange or another regulated market open to the public are generally valued at the price paid, quoted (bid or ask price) or calculated (mid price) on the main market or at the price according to the index provider. Other investments for which current prices are not available shall be valued at the price that would probably be obtained by diligent sale at the time of the estimate. In this case, the fund management company applies appropriate valuation models and principles recognised in practice to determine the market value. The provisions of Article 4 below remain reserved.
3. Open-ended collective investment schemes are valued at their redemption price or net asset value. If they are regularly traded on a stock exchange or on another regulated market open to the public, the fund management company may value them in accordance with Article 2.
4. The value of money market instruments that are not traded on a stock exchange or another regulated market open to the public is determined as follows – The valuation price of such investments is successively adjusted to the redemption price, starting from the net acquisition price, while ensuring that the investment return calculated therefrom remains constant. In the event of significant changes in market conditions, the valuation basis of the individual investments is adjusted to the new market return. In the absence of a current market price, the valuation is generally based on money market instruments with the same characteristics (quality and domicile of the issuer, issue currency, maturity).

5. Bank balances are measured at their receivable amount plus accrued interest. In the event of significant changes in market conditions or creditworthiness, the valuation basis for bank balances is adjusted to the new circumstances.
6. The net asset value of a unit of a class of a sub-fund is calculated by dividing the quota attributable to the unit class in question in the market value of the assets of this sub-fund less any liabilities of this sub-fund allocated to the unit class in question by the number of units of the corresponding class in circulation. It is rounded to the next smallest unit of account.
7. The share of the fair value of the net fund assets of a sub-fund (assets of a sub-fund less liabilities) attributable to the relevant unit classes shall be determined initially upon the first issue of several unit classes (if such issue takes place simultaneously) or that of a further unit class on the basis of the amounts accruing to the relevant sub-fund for each unit class. The share is recalculated for each of the following events:
   a) issue and redemption of units;
   b) the record date for distributions insofar as (i) such distributions only arise on individual unit classes (distribution classes) or (ii) the distributions of the various unit classes differ as a percentage of their relevant net asset value or (iii) different commission or cost charges arise regarding the distributions of the various unit classes as a percentage of the distribution;
   c) the net asset value calculation as part of the allocation of liabilities (including costs and commissions due or accrued) to the various unit classes if the liabilities of the different unit classes differ as a percentage of their respective net asset values, namely where (i) different commission rates are applied to the different unit classes or where (ii) class-specific cost charges are made;
   d) the net asset value calculation as part of the allocation of income or capital gains to the various unit classes, provided that the income or capital gains arise from transactions occurring only in the interest of one unit class or in the interest of several unit classes but not in proportion to their share of net fund assets of a sub-fund.
