What is this product?

Type	<p>FCP Teil I Gesetz von 2010</p> <p>The Fund is a sub-fund of an umbrella structure consisting of one or more sub-funds within the meaning of Article 181 of the Law of 17 December 2010. The periodic reports are prepared for the umbrella structure. These documents are available as set out under "Other relevant information". Each sub-fund is considered a separate fund in relation to the unitholders. The rights and obligations of the unitholders of a sub-fund are separate from those of the unitholders of the other sub-funds. In relation to third parties, the assets of a sub-fund are only liable for liabilities and payment obligations relating to that sub-fund. In principle, unitholders have the right to convert the units held into units of another sub-fund. Supplementary information can be found in the respective valid sales prospectus.</p> <p>It is a sub-fund of an umbrella structure consisting of one or more sub-funds. The periodic reports are prepared for the umbrella structure. These documents are available as set out under "Other relevant information". Each sub-fund is regarded as a separate fund in the relationship between the unitholders. The rights and obligations of the unitholders of one subfund are separate from those of the unitholders of the other subfunds. In relation to third parties, the assets of a subfund are only liable for liabilities and payment obligations relating to that subfund. In principle, unitholders have the right to convert the units held into units of another subfund. Supplementary information can be found in the respective valid sales prospectus.</p>
Term	<p>The Fund was established for an indefinite period. However, it may be wound up at any time if it is no longer possible to manage the Fund efficiently or if a change in the economic and/or political environment makes it necessary to wind it up.</p>
Objectives	<p>The fund's investment policy aims to increase the value of the investment capital contributed by the unit holders. To achieve this investment objective, the fund's assets will be invested in accordance with the principle of risk diversification. The fund invests primarily in mid- and small-cap stocks in the biotechnology, emerging pharma, and medical technology sectors. The fund is a financial product that promotes environmental and social characteristics and qualifies under Article 8(1) of Regulation (EU) 2019/2088 on sustainability-related disclosures in the financial services sector. In line with the principle of risk diversification, the fund invests worldwide, including in emerging markets, in equities, ADRs and GDRs, bonds including money market instruments, participation certificates, units in investment funds (UCITS and UCIs, including ETFs), certificates that contain financial indices, equities, interest rates, and foreign exchange as underlying assets and that reflect the performance of the underlying asset on a 1:1 basis and that are listed or traded on stock exchanges, other regulated markets that are recognized, open to the public, and function properly – "regulated markets" - 1:1 certificates on commodity indices and commodity prices as well as on other permitted underlying assets and structured products (options and convertible bonds). The fund may invest up to 10 % of its net assets in Chinese A-shares traded through the Stock Connect program. Chinese A-shares are renminbi-denominated A-shares of companies based in mainland China that are traded on the Shanghai Stock Exchange or the Shenzhen Stock Exchange. Up to 100 % of the fund's net assets, but always at least two-thirds, are invested in equities and bonds of companies active in the biotechnology, medical technology, healthcare, and pharmaceutical sectors. The fund will invest at least 60 % in equities as part of its investment policy. Fixed and variable-rate securities, convertible and option bonds, and zero bonds must be denominated in currencies of OECD member states. As part of its investment policy, the fund will invest more than 50 % of its net assets in equity investments. Up to 10 % of the fund's net assets may be invested in units of investment funds. The fund is therefore eligible for target funds. The fund may hold additional liquid assets of up to 20 %. The fund may use derivative transactions to reduce potential losses or to achieve higher gains in value. A derivative is a financial instrument whose value depends—not necessarily 1:1—on the performance of one or more underlying assets, such as securities or interest rates. The income remains in the fund and is reinvested. The individual securities are selected by the fund management. You can request the redemption of your shares from the management company on any valuation day. This fund is an actively managed fund that is not benchmarked.</p>
Target retail investor group	<p>The fund is intended for private clients, professional clients and eligible counterparties that pursue the objective of asset accumulation/optimisation. This fund is a product for investors with general knowledge of and/or experience with financial products. The potential investor could bear a financial loss up to the amount of the capital invested and does not attach any importance to capital protection. The investor's intended time horizon should be long-term.</p>
Further information	<p>The fund's depository is Hauck Aufhäuser Lampe Privatbank AG, Niederlassung Luxemburg. The prospectus and the current annual and semi-annual reports, the current unit prices and further information on the fund can be found free of charge in German or English at www.hauck-aufhaeuser.com.</p>

What are the risks and what could I get in return?

Risk Indicator

We have classified this product in risk class 5 on a scale of 1 to 7, where 5 corresponds to medium-high risk class.

The risk of potential losses from future performance is classified as medium-high. In adverse market conditions, it is likely that the ability of the Hauck & Aufhäuser Fund Services S.A. to pay you will be affected.

The product may be exposed to further risks that are not reflected in the global risk indicator. Please refer to the sales prospectus for more information.

This product does not include any protection from future market performance so you could lose some or all of your investment

The global risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to repay you.

Performance Scenarios

The figures shown include all the costs of the product itself, (where applicable) [but may not include all the costs that you pay to your advisor or distributor, and includes the costs of your advisor or distributor]. The figures do not take into account your personal tax situation, which may also affect how much you get back.

The final amount you receive from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of of the product over the last 11 years. Markets could develop very differently in the future.

The stress scenario shows what you might get back in extreme market circumstances.

The unfavourable scenario occurred for an investment between 9/02/2021 and 6/02/2026.

The moderate scenario occurred for an investment between 6/01/2016 and 6/01/2022.

The favourable scenario occurred for an investment between 6/04/2016 and 6/04/2022.

Example investment: 10,000 EUR

Recommended holding period: 6

		If you exit after 1 year	If you exit after 6 year(s)
Minimum	There is no minimum guaranteed return. You could lose some or all of your investment.		
Stress scenario	What you might get back after costs Average return each year	4,910 EUR -50.92 %	1,370 EUR -28.25 %
Unfavourable scenario	What you might get back after costs Average return each year	6,930 EUR -30.80 %	10,720 EUR 1.16 %
Moderate scenario	What you might get back after costs Average return each year	10,550 EUR 5.48 %	15,970 EUR 8.11 %
Favourable scenario	What you might get back after costs Average return each year	14,220 EUR 42.13 %	19,740 EUR 11.99 %

What happens if Hauck & Aufhäuser Fund Services S.A. is unable to pay?

It should be noted that the assets of the Fund are held separately from the assets of the Management Company.

Consequently, investors in the Fund will not suffer any losses in the event of the failure or insolvency of the Management Company.

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product performs. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have made the following assumptions:

- In the first year you would get back the amount that you invested (0% annual return). For the other holding periods, we have assumed the product performs as shown in the moderate scenario.
- 10,000 EUR is invested.

		If you exit after 1 year	If you exit after 6 year(s)
Total costs		863.05 EUR	4,335.86 EUR
Impact on return (RIY) per year		8.63 %	4.42 %

(*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 12.53% before costs and 8.11% after costs.

We may share part of the costs with the person selling you the product to cover the services they provide to you. This person will inform you of the amount.

These figures include the maximum distribution fee that the person selling you the product may charge (5% of amount invested /500 EUR). This person will inform you of the actual distribution fee.

Composition of costs

		If you exit after 1 year
One-off costs upon entry or exit		
Entry costs	Maximum 5% of the amount you pay in when entering this investment.	500.00 EUR
Exit costs	We do not charge an exit fee for this product.	0.00 EUR
Ongoing costs per year		
Management fees and other administrative or operating costs	1.8490% of the value of your investment per year. This is an estimate based on actual costs over the last year.	209.79 EUR
Transaction costs	0.6973% of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the underlying investments for the product. The actual amount will vary depending on how much we buy and sell.	79.12 EUR
Incidental costs under specific conditions		
Performance fees	The fee is calculated on the basis of the increase in value in combination with a high water mark and a hurdle rate and is paid annually at the end of the financial year. See the Prospectus for more information. The actual amount will vary depending on how well your investment performs. The aggregated cost estimation above includes the average over the last 5 years.	74.14 EUR

How long should I hold it and can I take money out early?

Recommended holding period: 6 year(s)

In view of the risk and return profile, we recommend a holding period of at least 6 years for this fund. However, you may redeem the fund on the terms set out in the prospectus. Early redemption may significantly affect the risk and return profile. Redemption may be temporarily suspended if there are circumstances that require a suspension and if this is considered justified, while taking into account the interests of the investors.

How can I complain?

Any complaints may be addressed in writing to the address of Hauck & Aufhäuser Fund Services S.A. at 1c, rue Gabriel Lippmann, L-5365 Munsbach, Grand Duchy of Luxembourg or sent by email to BeschwerdenHAFS@hauck-aufhaeuser.com.
