# Directors' Report

## The Company

Schroder International Selection Fund (the "Company") organised as a "société anonyme" is an open-ended 'umbrella' company incorporated under Luxembourg law, which enables investors to choose from 'Sub-Funds' (specific portfolios of assets and liabilities within the Company having their own net asset value and represented by a separate class or classes of shares) offering different investment objectives.

Schroders is a FATCA compliant organisation. The FATCA classification of this entity and its GIIN is as follows: FATCA entity classification: FFI; Sponsoring entity: Schroder Investment Management (Europe) S.A. (the "Management Company"); Sponsoring entity GIIN: 4R1MT7.00000.SP.442.

For Sub-Funds registered in the UK, as required by the Financial Conduct Authority (FCA), Schroders entered into the Temporary Marketing Permissions Regime (TMPR) which allows Schroders Funds to be distributed and marketed in the UK/to UK investors.

## Financial Statements

The Board of Directors (the 'Directors') of the Company submit their report and the unaudited financial statements for the period ended 30 June 2024.

At the date of this report, 140 Sub-Funds were available for investment. Please refer to the current prospectus for the investment objectives of the Sub-Funds as well as details of investment restrictions. The monthly factsheets for each Sub-Fund can be obtained from the Company's registered office and are also available on the website of Schroder Investment Management (Europe) S.A. (<http://www.schroders.lu>).

This report covers the period from 1 January 2024 to 30 June 2024. The financial statements are prepared in accordance with Luxembourg regulations relating to undertakings for collective investment. The last day on which prices were calculated was 28 June 2024, the last working day of the period. Across the Financial Statements, names of the Sub-Funds will be preceded by "Schroder ISF", e.g. Schroder ISF Global Equity Alpha. On 30 June 2024, the total net assets of the Company were EUR 116,307,586,897 compared to EUR 107,027,009,961 on 31 December 2023, representing an increase of 8.67%.

## Directors' Responsibilities

The responsibility of Directors is governed by Luxembourg law. With respect to the financial statements of the Company, the Board of Directors of the Company are required to prepare financial statements for each financial year which give a true and fair view of the assets, liabilities and financial position of the Sub-Funds as at the financial year end and of the profit or loss of the Sub-Funds for the financial year.

The Directors are required to:

- select suitable accounting policies and then apply them consistently;
- make judgments and estimates that are reasonable and prudent;
- state whether they have been prepared in accordance with the applicable accounting standards, identify those standards, and note the effect and the reasons for any material departure from those standards; and
- prepare the financial statements on the going concern basis unless it is inappropriate to presume that the Sub-Funds will continue in business.

The Directors are responsible for ensuring the maintenance of adequate accounting records. They have responsibility for taking such steps as are reasonably open to them to safeguard the assets of the Sub-Funds. In this regard, they have entrusted the assets of the Sub-Funds to J.P. Morgan SE, Luxembourg Branch (the "Depositary") for safe-keeping. The Directors have responsibility for taking such steps as are reasonably open to them to prevent and detect fraud and other irregularities.

## Board Meetings

During the period to 30 June 2024, there were 5 board meetings held.

## Corporate Governance

The Company is subject to corporate governance based on:

1. Its obligations as defined by the UCITS Directive 2009/65/EC dated 13 July 2009, as implemented in Luxembourg law, which is available for inspection at the registered office of the Company at 5, rue Höhenhof, 1736 Senningerberg, Grand Duchy of Luxembourg.
2. Its articles of incorporation which are available for inspection at the registered office of the Company and at the Luxembourg corporate and trade register, Registre de Commerce et des Sociétés ("RCSL").
3. Its obligations in respect of the management of the Company, for which the Company has appointed Schroder Investment Management (Europe) S.A. (the "Management Company"), which is subject to the requirements of the Management Company Directive 2010/43/EC, as implemented in Luxembourg law.
4. The Association of the Luxembourg Fund Industry ("ALFI") code of conduct, the principles of which the Company has voluntarily adopted.

## Internal Control and Risk Management Systems

The Board of Directors of the Company is responsible for establishing and maintaining adequate internal control and risk management systems of the Company in relation to the financial reporting process. Such systems are designed to manage rather than eliminate the risk of error or fraud in achieving the Company's financial reporting objectives and can only provide reasonable and not absolute assurance against material misstatement or loss.

The Board of Directors of the Company has contracted with the Management Company to put procedures in place to ensure all relevant accounting records are properly maintained and are readily available, including the production of annual and semi-annual reports. The annual and semi-annual reports of the Company are required to be approved by the Board of Directors of the Company and filed with the Commission de Surveillance du Secteur Financier ("CSSF") and, in the case of annual reports, with the RCSL.

The annual statutory financial statements are required to be audited by independent auditors who report to the Board of Directors on their findings.

The Board of Directors of the Company meets at least four times a year and ensures that the Company maintains high standards of integrity and control in its operations and that it possesses adequate governance and means of control as law and regulation demand.

## Sustainable Finance Disclosure Regulation

The information on the environmental and social characteristics for the Sub-Funds disclosing under article 8(1) of SFDR as required by article 50 (2) of SFDR RTS and the information on sustainable investments for the Sub-Funds disclosing under article 9(1), 9(2) and 9(3) of SFDR as required by article 58 of the SFDR RTS are available in the 31 December 2023 Annual Report in Appendix VI - Sustainable Finance Disclosure (Unaudited).

# Directors' Report (continued)

## 3. Sub-Fund liquidation

During the period under review, one Sub-Fund was liquidated:

Sub-Fund	Sub-Fund Base Currency	Liquidation Date
Schroder ISF Sustainable Conservative	EUR	28 February 2024

## 4. Sub-Fund merger

There was one merger during the period under review:

Merger Date	Sub-Fund
15 May 2024	Schroder ISF Sustainable Swiss Equity merged into Schroder ISF Swiss Equity

## 5. Sub-Fund name changes

During the period under review 2 Sub-Funds changed name:

Date	Current name	Previous name
8 May 2024	Schroder ISF European Equity Impact	Schroder ISF European Innovators
14 March 2024	Schroder ISF Cross Asset Momentum	Schroder ISF Cross Asset Momentum Component

## Significant Events During The Period

On 9 February 2024, Yves Francis was appointed to the Board of Directors of the Company.

On 27 June 2024, Wim Nagler was appointed to the Board of Directors of the Company.

On 27 June 2024, Marie-Jeanne Chevremont-Lorenzini resigned from the Board of Directors of the Company.

### Ukraine/Russia sanctions

The invasion of Ukraine by Russia which began on 24 February 2022 has increased valuation, liquidity and market risk for securities issued by Ukraine, Belarus and Russia, and to a certain extent, most global markets. As of the date of this report the resolution of this event, and the potential impact on the Sub-Funds, continues to be uncertain. The board are closely monitoring the situation with respect to all securities held in the Sub-Funds.

## The Board of Directors

Schroder International Selection Fund

30 June 2024

The information contained in this report is historical and is not necessarily indicative of future performance.

# Investment Manager's Report

## Economic review

The economic focus for the period under review continued to be on inflation and the path of interest rates, particularly in the US. As 2024 began, investors anticipated a series of interest rate cuts from the US Federal Reserve (Fed) over the course of the year. However, while inflation fell back from its highs, it remained above target. Combined with a resilient US jobs market, this complicated the picture in terms of rate cuts. The Fed kept interest rates on hold at 5.25-5.50% and markets reduced their expectations for future rate cuts. At the end of the period, only one cut was anticipated for 2024.

The European Central Bank did reduce interest rates in June, lowering its three key interest rates by 25 basis points. However, statements from policymakers indicated that any further cuts would remain dependent on economic data, with inflation still above target at 2.5% in June. Meanwhile, the Bank of England left interest rates on hold.

The Bank of Japan made significant changes to monetary policy over the period. These included lifting the negative interest rate policy and shifting to a positive interest rate of 0.0-0.1%. The decision was supported by the significant progress made in the spring wage negotiations, known as Shunto. The wage increase negotiated by unions exceeded 5%, a 34-year high.

In emerging markets, China's slow economic growth and problems in the property sector persisted despite some select policy stimulus measures.

Aside from inflation and interest rates, politics was a theme of the period with elections in several major economies. In India, Prime Minister Modi will remain in power but with a weaker, albeit solid mandate, after the BJP lost its single party majority. In Mexico, Claudia Sheinbaum was elected president. She is seen as the successor of outgoing President Andres Manuel Lopes Obrador (AMLO), who has served a one-term limit.

The attention towards the end of the period turned to developed markets with the UK holding a general election in July while France held snap parliamentary elections. Investors also began to look ahead to the US Presidential election in November.

## Equity market review

Against this backdrop, developed market equities posted a strong advance. The MSCI World index returned 11.7% (in US Dollars). Despite the lack of interest rate cuts, US shares performed very strongly, led by some of the big technology companies, particularly those with exposure to the artificial intelligence (AI) theme. The strength of "big tech" meant smaller companies continued to under perform their large cap counterparts.

Signs of a return of inflation and wage growth helped to support Japanese shares. Local market indices reached their highest levels since 1989 amid calls from Tokyo Stock Exchange for companies to focus on improving their corporate value. However, yen weakness capped the gains for international investors.

Emerging markets also gained in the period but underperformed developed markets with the MSCI EM index returning 7.5% (in US Dollars). Several emerging markets stocks, notably in Taiwan, performed well given their exposure to AI.

## Fixed income market review

Yields across the major government bond markets rose over the first half of 2024, as investors scaled back earlier expectations for several interest rate cuts this year, notably in the US.

The US 10-year Treasury yield rose from 3.86% to 4.41%, as robust US economic indicators and sticky inflation extinguished hopes of an early cut in interest rates.

Japanese 10-year yields rose sharply from 0.62% to 1.05%. The Bank of Japan raised interest rates and the 10-year government bond yield breached 1% for the first time in 11 years.

The 10-year gilt yield rose from 3.54% to 4.18% as the Bank of England kept interest rates at a 16-year high.

The 10-year German Bund yield climbed from 2.03% to 2.49%. The European Central Bank cut interest rates in June but signaled a cautious approach to further reductions.

In credit markets, spreads tightened on both US and European corporate bonds, notably high yield securities.

The US Dollar recovered from a sharp decline in late 2023, as investors now anticipate the Fed will delay any interest rate cuts until autumn.

## Outlook

Schroders' economists expect global economic growth of 2.8% in both 2024 and 2025. Decent growth should support a continued recovery in the global manufacturing cycle. However, inflation is also set to be a bit higher at 3.0% this year, due in large to upside surprises from incoming data in the developed markets, before subsiding to 2.4% in 2025.

The US is set to remain the key driver of global growth in 2024. Incoming labour market data hint at some softening in wage and employment growth, but the usual lags mean that this is more of a 2025 story for the real economy. For the time being, past increases in real wage growth should buttress robust consumption growth through the course of 2024.

In turn, buoyant US consumption should offer continued support to the recovery in global manufacturing. The manufacturing recovery, along with geopolitical risks and the energy transition, mean that commodity prices are likely to rise further. That will be good news for those economies that export natural resources such as in Latin America.

Exports have helped China's economy but the domestic picture remains fragile, despite some stimulus. Housing starts have slumped, while the collapse also still appears to be hurting confidence and holding back consumption. Overall GDP growth in China is likely to slow into 2025.

The accompanying notes form an integral part of these financial statements.

# Notes to the Financial Statements as at 30 June 2024

## The Company

The Company was incorporated in Luxembourg on 5 December 1968 as a 'société anonyme'. Pursuant to an Extraordinary General Meeting of Shareholders held on 31 January 1989, the form and name of the Company, as well as its establishment period, was changed to a 'société d'investissement à capital variable' ('SICAV') established for an unlimited period under the name of Schroder International Selection Fund. The Company qualifies as an undertaking for collective investment (UCI) regulated by the provisions of Part I of the Luxembourg Law of 17 December 2010, as amended, regarding undertaking for collective investment (the '2010 law').

## Classes of Shares

At the date of this report, thirty one classes of shares are available within the Sub-Funds: A, A1, A CO, AX, B, C, C CO, CN, CX, D, E, F, I, IA, IB, IC, IE, IZ, J, K1, R, S, U, X, X1, X2, X3, X9, Y, Y9 and Z shares.

All Sub-Funds offer A, B and C shares, apart from the following Sub-Funds:

Schroder ISF Emerging Markets Equity Alpha (offers only A, C, E, I, IZ & X);  
Schroder ISF Global Gold (offers only A, A1, C, I, IZ, S & U);  
Schroder ISF Indian Opportunities (offers only A, A1, C, E, F, I & IZ);  
Schroder ISF Japanese Opportunities (offers only A, A1, C & I);  
Schroder ISF Nordic Micro Cap (offers only A, C, I & IZ);  
Schroder ISF Nordic Smaller Companies (offers only A, C, I & IZ);  
Schroder ISF Sustainable Asian Equity (offers only A, AX, C, F, I, IZ & U);  
Schroder ISF Sustainable Global Growth and Income (offers only C, I, IZ & S);  
Schroder ISF Sustainable Multi-Factor Equity (offers only C, I & IZ);  
Schroder ISF QEP Global Core (offers only C, I, IZ, X & X1);  
Schroder ISF QEP Global Emerging Markets (offers only A, A1, C, I, IZ, K1 & Z);  
Schroder ISF QEP Global ESG (offers only A, C, I, IZ & S);  
Schroder ISF QEP Global ESG ex Fossil Fuels (offers only A, C, I, IE & IZ);  
Schroder ISF Sustainable Emerging Markets Ex China Synergy (offers only A, C, E & I);  
Schroder ISF Sustainable Emerging Markets Synergy (offers only A, C, E, I, IZ & X);  
Schroder ISF Cross Asset Momentum\* (offers only I);  
Schroder ISF Dynamic Income\* (offers only A, A1, C & I);  
Schroder ISF Global Managed Growth (offers only A, C, E, I & IZ);  
Schroder ISF Global Target Return (offers only A, A1, AX, C, I, IZ, U & X);  
Schroder ISF Japan DGF (offers only C, I, IZ & X);  
Schroder ISF Sustainable Conservative\* (offers only A, A1, C, I & IZ);  
Schroder ISF Hong Kong Dollar Bond (offers only A, A1, C, I & IZ);  
Schroder ISF Sustainable US Dollar Short Duration Bond (offers only A, A1, C, E, I & Y);  
Schroder ISF BlueOrchard Emerging Markets Impact Bond (offers only A, C, I & X);  
Schroder ISF Emerging Markets Local Currency Bond (offers only A, C, I & IZ);  
Schroder ISF Securitised Credit (offers only A, A1, C, E, I & IZ);  
Schroder ISF Sustainable US Dollar Corporate Bond (offers only A, C, E, I & IZ);  
Schroder ISF Sustainable US Dollar High Yield (offers only A, C, E, I & IZ);

Shares are generally issued as Accumulation shares. Distribution shares may be issued within any Sub-Fund at the Directors' discretion. A list of available Distribution shares may be obtained upon request at the Management Company.

In accordance with the provisions of the current prospectus, the Directors may also offer classes in multiple currency denominations. The respective Investment Managers have the ability to hedge the shares of such classes in relation to the Sub-Fund currency or in relation to currencies in which the relevant Sub-Fund's underlying assets are denominated. Where hedging of this kind is undertaken, the respective Investment Managers may engage, for the exclusive account of such share class, in currency forwards, currency futures, currency option transactions and swaps in order to preserve the value of the reference currency against the Sub-Fund currency. Where undertaken, the effects of this hedging will be reflected in the Net Asset Value and, therefore, in the performance of such additional share class. Similarly, any expenses arising from such hedging transactions will be borne by the class in relation to which they have been incurred. The classes of share available for each Sub-Fund are set out in detail in the current prospectus. The Directors may decide from time to time for some or all of the Bond Funds to issue duration hedged share classes. Duration hedged share classes utilise hedging strategies that seek to reduce the share class' sensitivity to changes in interest rate movements. There is no assurance that these hedging strategies will be successful. Where undertaken, the effects of this hedging will be reflected in the Net Asset Value and, therefore, in the performance of the share class. Similarly, any expenses arising from such hedging transactions will be borne by the duration hedged share class. The performance of the duration hedged share classes may underperform other share classes in the Bond Funds depending on interest rate movements. Duration hedged share classes can be issued in relation to any type of available share classes of Bond Funds.

The naming convention used for the share classes is as follows:

A Acc for base currency share class;

A Acc 'CCY' for a multicurrency share class;

A Acc 'CCY' Hedged for a hedged share class.

\* Please refer to the Directors' Report for details of all corporate actions that occurred during the period under review.

# Notes to the Financial Statements as at 30 June 2024 (continued)

## Minimum Subscription Amount, Minimum Additional Subscription Amount and Minimum Holding Amount (continued)

<b>X3 Shares</b>	The minimum initial subscription and holding amount is EUR 17,500,000 or their near equivalent in any other freely convertible currency. The minimum additional subscription amount is EUR 12,500,000 or their near equivalent in any other freely convertible currency. <sup>†</sup>
------------------	---

<b>K1, R and S Shares</b>	There are no minimum subscription or holding amounts.
---------------------------	---

<sup>†</sup> These minima may be waived from time to time at the discretion of the Directors.

Further details on specific features of the different classes of shares and the conditions under which initial and distribution fees are calculated can be found in the current prospectus.

## Accounting Policies

### Summary of Significant Accounting Policies

The financial statements are prepared and presented in accordance with generally accepted accounting principles in Luxembourg for investment funds on a going concern basis. Sub-Funds that have been liquidated or are intended to be liquidated after the period end are prepared on a non-going concern basis. The application of the non-going concern basis of accounting has not lead to material adjustments to the Sub-Funds' published net asset values. This cash is monitored by management and will be re-distributed to the investors once all outstanding costs are paid.

At the reporting date the cash amounts held at custody for the following liquidated Sub-Funds were:

Sub-Funds	Cash held at custody as at reporting date
Schroder ISF Digital Infrastructure	84,224 USD
Schroder ISF European Sustainable Value	20 EUR
Schroder ISF Sustainable Swiss Equity	45 CHF
Schroder ISF Sustainable Conservative	21,257 EUR
Schroder ISF Global Multi-Factor Equity	32,886 USD
Schroder ISF QEP Global Value Plus	104,892 USD
Schroder ISF Global Credit Duration Hedged	524 EUR

## Net Asset Value

### Calculation of Net Asset Value per share

The Net Asset Value ('NAV') per Share of each Class is calculated on each Dealing Day in the currency of the relevant class. It is calculated by dividing the NAV attributable to each Class, being the proportionate value of its assets less its liabilities, by the number of Shares of such Class then in issue. The resulting sum is rounded to the nearest four decimal places. Further details on rules that apply in valuing total assets can be found in the current prospectus.

The financial statements are prepared on the basis of the last NAV calculated during the period (28 June 2024 for all Sub-Funds).

### Valuation of the Assets of the Company

The values of securities, derivative instruments and assets are determined on the last day on which prices were calculated. The basis for this value uses the available price at the valuation point for each fund on the stock exchange or any other regulated market on which those securities or assets are traded or admitted for trading. Where such securities or other assets are quoted or dealt in on more than one stock exchange or any other regulated market, the Directors shall make regulations for the order of priority in which stock exchanges or other regulated markets shall be used for the provision of prices of securities or other assets.

If a security is not traded on or admitted to any official stock exchange or any other regulated market or, in the case of securities so traded or admitted, the last available price does not reflect their true value, the Directors are required to proceed on the basis of their expected sales price, which shall be valued with prudence and in good faith.

The value of any cash in hand or on deposit, bills and demand notes and accounts receivable, prepaid expenses, cash dividends and interest declared or accrued as aforesaid and not yet received shall be deemed to be the full amount thereof, unless in any case the same is unlikely to be paid or received in full, in which case the value thereof shall be arrived at after making such discount as the Company may consider appropriate in such case to reflect the true value thereof.

Financial derivative instruments, which are not listed on any official stock exchange or any other regulated market, are valued in accordance with market practice. The swaps are valued at their fair value based on the underlying securities (at close of business or intraday) as well as on the characteristics of the underlying commitments.

Schroder ISF EURO Liquidity and Schroder ISF US Dollar Liquidity are standard Money Market Sub-Funds which fall under Money Market Fund Regulation or MMFR the regulation (EU) 2017/1131 of the European Parliament and of the Council of 14 June 2017 on Money Market Funds, as it may be amended or supplemented from time to time. The assets of Sub Funds qualifying as Money Market Funds shall be valued on at least a daily basis. The Net Asset Value per Share shall be calculated as the difference between the sum of all assets of the Fund and the sum of all liabilities of the Fund valued in accordance with Mark-to-Market or Mark-to-Model, or both, divided by the number of outstanding Shares of the Fund. Units or shares of any other standard or short-term Money Market Fund ("targeted MMF") provided that all of the following conditions are fulfilled: (I) no more than 10 % of the assets of the targeted MMF are able, according to its fund rules or instruments of incorporation, to be invested in aggregate in units or shares of targeted MMFs.

Units or shares in open-ended undertakings for collective investment are valued on the basis of the latest available reported Net Asset Value.

# Notes to the Financial Statements

## as at 30 June 2024 (continued)

### Net Asset Value (continued)

If any of the aforesaid valuation principles do not reflect the valuation method commonly used in specific markets or if any such valuation principles do not seem accurate for the purpose of determining the value of the Company's assets, the Directors may fix different valuation principles in good faith and in accordance with generally accepted valuation principles and procedures. Any assets or liabilities in currencies other than the base currency of the Sub-Funds are converted using the relevant spot rate quoted by a bank or other responsible financial institution.

The Directors are authorised to apply other appropriate valuation principles for the assets of the Sub-Funds and/or the assets of a given Share Class if the aforesaid valuation methods appear impossible or inappropriate due to extraordinary circumstances or events.

As of 30 June 2024, fair valuation was applied to the following securities:

## Fair Value Pricing

In accordance with the provisions of the current prospectus, pricing may be implemented to protect the interests of the Company's Shareholders against market timing practices. Accordingly, if a Sub-Fund is primarily invested in markets that are closed for business at the time the Sub-Fund is valued, the Directors may, during periods of market volatility and by derogation from the provisions above under 'Calculation of Net Asset Value per share', cause the Sub-Fund Administrator to allow for the Net Asset Value per share to be adjusted to reflect more accurately the fair value of the Sub-Fund's investments at the point of valuation. The level of adjustment is based upon a systematic process involving a multi-factor regression approach that incorporates global, regional and security specific factors up until the point of valuation.

The Directors, however, reserve the right to extend the implementation of fair value pricing in respect of other Sub-Funds wherever they deem it appropriate.

On 28 June 2024, the last working day of the period under review, the following Sub-Funds were adjusted.

Sub-Fund	Currency	Total Adjustment
Schroder ISF Asian Opportunities	USD	7,007,462
Schroder ISF Global Equity	USD	6,972,328

## Swing Pricing Adjustment

A Sub-Fund may suffer dilution of the Net Asset Value per Share due to investors buying or selling Shares in a Sub-Fund at a price that does not reflect the dealing and other costs that arise when security trades are undertaken by the Investment Manager to accommodate cash inflows or outflows. In order to counter this impact, a Swing Pricing mechanism may be adopted to protect the interests of Shareholders of the Sub-Fund. If on any Valuation Date, the aggregate net transactions in Shares of a Sub-Fund exceed a pre-determined threshold, as determined and reviewed for each Sub-Fund on a periodic basis by the Directors, the Net Asset Value per Share may be adjusted upwards or downwards to reflect net inflows and net outflows respectively.

The net inflows and net outflows is determined by the Management Company based on the latest available information at the time of calculation of

\* Please refer to the Directors' Report for details of all corporate actions that occurred during the period under review.

# Notes to the Financial Statements as at 30 June 2024 (continued)

## Swing Pricing Adjustment (continued)

the Net Asset Value per Share. The Swing Pricing mechanism may be applied across all Sub-Funds. The extent of the price adjustment will be set by the Management Company to reflect dealing and other costs. Such adjustment may vary from Sub-Fund to Sub-Fund and in normal market conditions is not expected to exceed 2% of the unadjusted Net Asset Value per Share of the relevant Fund on any Dealing Day. However, under unusual or exceptional market conditions (such as significant market volatility, market disruption or significant economic contraction, a terrorist attack or war (or other hostilities), a pandemic or other health crisis, or a natural disaster), the Management Company may decide, on a temporary basis, to adjust the Net Asset Value of a Fund by more than 2% when such a decision is justified as being in the best interests of the shareholders. Any such decision to adjust the Net Asset Value by more than 2% will be published on the following website: [www.schroders.lu](http://www.schroders.lu)

The swing pricing mechanism has been applied to the Company's Sub-Funds since 12 January 2009.

On 28 June 2024 the last working day of the period under review, swing pricing adjustment was applied to Schroder ISF China Opportunities, Schroder ISF Global Smaller Companies, Schroder ISF Latin American, Schroder ISF Sustainable Multi-Factor Equity, Schroder ISF QEP Global Core, Schroder ISF QEP Global ESG, Schroder ISF Emerging Markets Multi-Asset, Schroder ISF Multi-Asset Growth and Income, Schroder ISF EURO Corporate Bond and Schroder ISF Sustainable Global Sovereign Bond. The official Net Asset Values per share of these Sub-Funds following the application of the swing pricing adjustments are shown in the following table. All other financial information stated in this report is shown before any adjustments for swing pricing.

## Cash Collateral Reinvestment

For the purpose of counterparty risk mitigation, Sub-Funds with currency hedging transactions related to hedged share classes will pay or receive cash collateral on a daily basis from the counterparty, thus reducing their exposure over the duration of the forward contract. Investment Managers may reinvest the cash collateral they receive from their counterparty in connection with currency hedging, in line with the investment objectives of the Sub-Fund.

## Realised Gains and Losses on Sales of Investments in Securities

Realised gains and losses on sales of investments in securities are determined on the average cost basis and include transaction costs.

## Forward Currency Exchange Contracts

Outstanding forward currency exchange contracts are valued at the last available price at NAV calculation day by reference to the forward rate of exchange applicable to the maturity of the contracts. The unrealised gain/(loss) is shown in the Combined Statement of Net Assets under 'Unrealised gain/(loss) on forward currency exchange contracts'.

# Notes to the Financial Statements as at 30 June 2024 (continued)

## Futures Contracts

Futures contracts were valued at the last available price on 28 June 2024. The unrealised gain/(loss) is shown in the Combined Statement of Net Assets under 'Unrealised gain/(loss) on financial futures contracts'.

## Options Contracts

Options contracts were valued at the last available price on 28 June 2024 and the net market value is shown in the Combined Statement of Net Assets under 'Options purchased and swaptions contracts at market value' for assets and under 'Options written and swaptions contracts at market value' for liabilities.

## Inflation Rate Swap Contracts

The Company invests in inflation swaps as part of the investment strategy. Inflation swaps were valued at the last available price on 28 June 2024 at their intrinsic value. The valuation method involves the determination of the net present value of future cash flows at the closing date. The result of these revaluations together with any interest receivable/payable in relation to inflation swaps on 28 June 2024 is shown in the Combined Statement of Net Assets under 'Swap contracts at fair value'.

## Interest Rate Swap Contracts

In order to hedge against interest rate fluctuations, the Company may enter into interest rate swaps. Such contracts must be denominated in the currencies in which the assets of such Sub-Fund are denominated, or in currencies which are likely to fluctuate in a similar manner and must be either listed on an exchange or dealt in on a Regulated Market. Interest rate swaps were valued at the last available price on 28 June 2024 at their intrinsic value. The valuation method involves a current value of each interest rate and capital series converted into the currency of the Sub-Fund on the closing date. The result of these revaluations together with any interest receivable/payable in relation to interest rate swaps on 28 June 2024 is shown in the Combined Statement of Net Assets under 'Swap contracts at fair value'.

## Credit Default Swap Contracts

A credit default swap contract is a credit derivative transaction in which two parties enter into an agreement, whereby one party pays the other a fixed periodic coupon for the specified life of the agreement. The other party makes no payments unless a credit event, relating to a predetermined reference asset, occurs. If such an event occurs, the party will then make a payment to the first party, and the swap will terminate. The value of the underlying securities shall be taken into account for the calculation of the investment and borrowing powers applicable to individual issuers. The market values are recorded under "Swap contracts at fair value" in the Combined Statement of Net Assets. The changes in unrealised gains or losses are included in the Combined Statement of Operations and Changes in Net Assets under "Net change in unrealised appreciation/(depreciation) on Swaps contracts". When a contract is closed, the realised gains or losses are recorded under "Net change in realised appreciation/(depreciation) on swap contracts" in the Combined Statement of Operations and Changes in Net Assets.

## Total Return Swap

The Company may use total return swaps. A total return swap is a bilateral financial contract which allows the Company to enjoy all of the cash flow benefits of an asset without actually owning this asset (the 'Reference Asset'). The Company will have to pay a periodic fee (fixed or floating payment) in exchange of its right to receive the total return of the Reference Asset (coupons, dividends and capital gains or losses). The Reference Asset can be almost any asset, index or basket of asset which constitutes an eligible investment for the Company. The Company may use such instruments to seek exposure to an eligible market or for hedging purposes.

The Company will only enter into a total return swap transaction with financial institutions specialised in this type of transaction. In addition, the use of total return swaps must comply with the investment objectives and policies and risk profile of the relevant Sub-Fund. The total commitments arising from the use of total return swaps together with the total commitments arising from the use of other derivative instruments may not, at any time, exceed the net assets of the relevant Sub-Fund.

The total return swaps were valued at the last available price on 28 June 2024. The unrealised gain or loss on total return swaps at the period end is represented by the values of interests to be received (or paid), based on relevant swap agreements' interest rates less (or plus, respectively), the value of the performance to be paid (or received, respectively), based on the total return value of underlying assets, which is made of the current fair value of the bonds plus the coupon for such debt instruments for the relevant swap period. The unrealised gain/(loss) is shown in the Combined Statement of Net Assets under 'Swap contracts at fair value'.

## Fees and Expenses

### Expense Subsidy

The administration fees, custodian fees, distribution fees, management fees and statutory fees are calculated and accrued daily by reference to the Net Asset Value of the Sub-Funds and are paid monthly.

The following table shows the share classes whose TER was above the designated CAP as at reporting date.

Sub-Fund	Share Classes	TER Cap

## Operating Expenses

The Sub-Funds pay other Operating expenses incurred in the operation of the Company which are composed of statutory fees and are mainly audit, legal and publication fees, please refer to the 'Operating Expenses' shown in the Combined Statement of Operations and Change in Net Assets.

## Depositary and Administration Fees

The Depositary and Sub-Fund Administrator are entitled to fees for related services rendered in accordance with common practice in Luxembourg, payable monthly, out of the net assets of the Sub-Fund.

## Directors' Fees

For the period from 1 January 2024 to 30 June 2024 Richard Mountford received in remuneration an amount of EUR 45,000, Hugh Mullan received in remuneration an amount of EUR 32,500. Marie-Jeanne Chevremont received in remuneration an amount of EUR 41,799. Bernard Herman, Eric Bertrand and Yves Francis each received EUR 40,000 in remuneration.

The remaining Directors have waived their remuneration.

## Distribution Charge

The distribution charge represents the cost charged to the Sub-Fund for the distribution of the share classes and it is expressed as a percentage of the net assets. The actual rates payable as at 30 June 2024, which vary from Sub-Fund to Sub-Fund and from share class to share class are set out in the note on page 931.

## Management Fees

The Investment Managers are entitled to receive management fees for their services, which are calculated and accrued daily by reference to the Net Asset Value of the Sub-Funds and are paid monthly. No management fees are payable out of the net assets for I and J share classes, however the Investors are charged directly by Schroders. The actual rates payable as at 30 June 2024, which vary from Sub-Fund to Sub-Fund and from share class to share class are set out in the table on pages 951 - 973. During the period, the following fee changes took effect: Schroder ISF Global Equity Class S Dis decreased from 0.28% to 0.21% on 21 February 2024 and Schroder ISF Sustainable EURO Credit decreased from 0.32% to 0.29% on 13 May 2024.

## Performance Fees

In accordance with the provisions of the current prospectus, performance fees terms were applied to 1 Sub-Fund. Accordingly, the Investment Managers of the relevant Sub-Fund are entitled to receive from the Sub-Fund a performance fee, in addition to management fee, provided that the increase in the Net Asset Value per share of the Sub Funds over the calendar year outperforms their relevant benchmarks over the same period, in accordance with the high water mark principle, i.e. by reference to the Net Asset Value per Share at the end of any previous performance period (the High Water Mark). The performance period shall normally be each financial year except that where the Net Asset Value per Share as at the end of the financial year is lower than the High Water Mark, the performance period will commence on the date of the High Water Mark.

If a performance fee is introduced on a Sub-Fund during a financial year, then its first performance period will commence on the date on which such fee is introduced. The performance fee is 20% of the outperformance and is payable annually in January. Further details of the calculation of the performance fees can be found in the current prospectus.

The Sub-Funds in relation to which performance fees were calculated during the period under review as well as details of the relevant Investment Managers and benchmarks are set out in the following table.

Sub-Funds	Investment Manager	Benchmark
Schroder ISF European Alpha Absolute Return	Schroder Investment Management Limited	Euro Short Term Rate

No performance fees were payable for the financial period under review.

## Taxation

The Company is not subject to any taxes in Luxembourg on income or capital gains. The only tax to which the Company in Luxembourg is subject is the 'taxe d'abonnement' at a rate of 0.05% per annum based on the net asset value of each Sub-Fund at the end of the relevant quarter, calculated and paid quarterly. In respect of any Share Class or Sub-Fund which comprises only institutional Investors (within the meaning of article 174 of the Law of 17 December 2010), the tax levied will be at the rate of 0.01% per annum.

Interest and dividend income received by the Company may be subject to non-recoverable withholding tax in the source countries. The Company may further be subject to tax on the realised or unrealised capital appreciation of its assets in the countries of origin, and provisions in this respect may be recognised in certain jurisdictions.

\* Please refer to the Directors' Report for details of all corporate actions that occurred during the period under review.

# Notes to the Financial Statements as at 30 June 2024 (continued)

## Taxation (continued)

Capital gains realised on the disposal of Indian listed stocks within 12 months after purchase (short term gains) are subject to a 15% Indian capital gains tax. The disposal of Indian listed stocks after 12 months after purchase (long-term gains) were exempt until 1 April 2018. Starting on 1 April 2018 India also introduced a capital gains tax on long-term gains at a rate of 10%. The capital gains taxes are taken into account on an arisen basis at the applicable rates for a short term gain or a long term gain without taking a provision into account. Since 4 April 2018, the capital gains taxes are accrued in the net asset value and included in the Statement of Net Assets under the heading 'Other liabilities' and included in the Statement of Operations and Changes in Net Assets under 'Net realised gain/(loss) on: currency exchange' for the capital gain taxes linked to realised gains and under 'Net Change in unrealised appreciation/depreciation on: currency exchange' for the unrealised appreciation of investments during the period.

## Changes in the Sub-Funds

A list specifying the total purchases and sales for each Sub-Fund, which took place during the period under review, may be obtained free of charge upon request at the Company's registered office.

## Transactions made for a Purpose other than Hedging

In accordance with the provisions of the current prospectus, the Company may, for a purpose other than hedging, purchase and sell futures contracts, forward foreign exchange contracts, financial derivative instruments that are traded OTC including, without limitation, total return swaps, contracts for difference or other financial derivative instruments with similar characteristics and equity swaps provided that the Company will only enter into equity swap transactions with highly rated financial institutions specialised in this type of transaction.

## Securities Lending

There has been no securities lending activity on the Company's Sub-Funds since December 2012.

## Disclosure of Transaction Costs

The transaction costs are broker commission fees and taxes related to the purchase and sale of transferable securities. Custodian transaction costs are not included in this table, please refer to the Depository Fees shown in the Combined Statement of Operations and Change in Net Assets which includes custody transaction costs that represent fixed rate charges per market levied by the custodian for the servicing of portfolio transactions. Bond Sub-Funds will generally show the figure of zero as the broker commission fees are included in the spread, which is excluded from the calculation pursuant to Annex I, Schedule B, Chapter V of Directive 2009/65/EC of the European Parliament. Transaction costs for baskets of contracts for difference are included in the market value. The transactions costs for the period under review are as follows:

^ The total expense ratio (TER) was calculated in accordance with the Guidelines on the calculation and disclosure of the Total Expense Ratio (TER) of collective investment schemes of 16 May 2008 of the Asset Management Association Switzerland AMAS. Transaction costs are included in the purchase/sale price of the securities (if any). These costs, which are not treated as operating expenses, are not included in the calculation of the TER. The TER is calculated for the last twelve months. The TER is annualised for periods less than one year.

^ The total expense ratio (TER) was calculated in accordance with the Guidelines on the calculation and disclosure of the Total Expense Ratio (TER) of collective investment schemes of 16 May 2008 of the Asset Management Association Switzerland AMAS. Transaction costs are included in the purchase/sale price of the securities (if any). These costs, which are not treated as operating expenses, are not included in the calculation of the TER. The TER is calculated for the last twelve months. The TER is annualised for periods less than one year.

^ The total expense ratio (TER) was calculated in accordance with the Guidelines on the calculation and disclosure of the Total Expense Ratio (TER) of collective investment schemes of 16 May 2008 of the Asset Management Association Switzerland AMAS. Transaction costs are included in the purchase/sale price of the securities (if any). These costs, which are not treated as operating expenses, are not included in the calculation of the TER. The TER is calculated for the last twelve months. The TER is annualised for periods less than one year.

^ The total expense ratio (TER) was calculated in accordance with the Guidelines on the calculation and disclosure of the Total Expense Ratio (TER) of collective investment schemes of 16 May 2008 of the Asset Management Association Switzerland AMAS. Transaction costs are included in the purchase/sale price of the securities (if any). These costs, which are not treated as operating expenses, are not included in the calculation of the TER. The TER is calculated for the last twelve months. The TER is annualised for periods less than one year.

^ The total expense ratio (TER) was calculated in accordance with the Guidelines on the calculation and disclosure of the Total Expense Ratio (TER) of collective investment schemes of 16 May 2008 of the Asset Management Association Switzerland AMAS. Transaction costs are included in the purchase/sale price of the securities (if any). These costs, which are not treated as operating expenses, are not included in the calculation of the TER. The TER is calculated for the last twelve months. The TER is annualised for periods less than one year.

# Appendix I – Securities Financing Transactions

The Sub-Funds engages in Securities Financing Transactions (as defined in Article 3 of Regulation (EU) 2015/2365, securities financing transactions (SFTs) include repurchase transactions, securities or commodities lending and securities or commodities borrowing, buy-sell back transactions or sell-buy back transactions and margin lending transactions) and/or Total Return Swaps. In accordance with Article 13 of the Regulation, the Sub-Funds involvement in and exposures related to SFTs and Total Return Swaps for the reporting date are detailed below.

## Global Data

### Amount of assets engaged in each type of SFTs and Total Return Swaps

The following table represents the fair value of assets engaged in each type of SFTs (including Total Return Swaps) in the Sub-Fund currency.

	Amount of assets	% of AUM
<b>Schroder ISF Commodity</b>	<b>USD</b>	
Total Return Swaps	5,636,694	5.26%
<b>Schroder ISF Cross Asset Momentum*</b>	<b>USD</b>	
Total Return Swaps	1,290,533	0.27%
<b>Schroder ISF Global Diversified Growth</b>	<b>EUR</b>	
Total Return Swaps	223,358	0.03%
<b>Schroder ISF Global Multi-Asset Balanced</b>	<b>EUR</b>	
Total Return Swaps	161,073	0.03%
<b>Schroder ISF Multi-Asset Total Return</b>	<b>USD</b>	
Total Return Swaps	55,689	0.04%
<b>Schroder ISF European Alpha Absolute Return</b>	<b>EUR</b>	
Total Return Swaps	1,737,609	4.32%
<b>Schroder ISF Asian Bond Total Return</b>	<b>USD</b>	
Total Return Swaps	2,024,268	1.27%
<b>Schroder ISF Asian Local Currency Bond</b>	<b>USD</b>	
Total Return Swaps	5,538,263	1.43%

## Concentration Data

### Ten largest collateral issuers

As at 30 June 2024, there are no collateral securities and commodities received in respect of total return swaps.

### Top ten counterparties

The following table provides details of the top ten counterparties (based on gross volume of outstanding transactions), in respect of SFTs and Total Return Swaps, as at the reporting date.

Counterparty	Outstanding Transactions
<b>Schroder ISF Commodity</b>	<b>USD</b>
<b>Total Return Swaps</b>	
Macquarie Bank Limited London	5,532,005
BNP Paribas SA	51,304
J.P. Morgan Securities plc	34,866
The Goldman Sachs Group, Inc.	18,519
<b>Schroder ISF Cross Asset Momentum*</b>	<b>USD</b>
<b>Total Return Swaps</b>
