The Company and the Management Company are not liable for any tax consequences that may result from a forcible redemption or exchange.

"I-B"

Shares in classes with "I-B" in their name are exclusively reserved for institutional investors within the meaning of Article 174(2)(c) of the Law of 2010 who a) have entered into a written agreement (excluding asset management and investment

advisory agreement) with a UBS Group entity for the explicit purpose of investment in the I-B share class of the assets, or b) have entered into a written asset management agreement with a UBS Group entity belonging to the Asset Management Division, or c) have entered into a written asset management agreement with a UBS Group entity provided that such entity has delegated asset management to a UBS Group entity belonging to the Asset Management Division. Shares are not transferable without the Company's approval. These shares are not subject to a management fee, but only to a management service fee, payable by the Company to the Management Company covering all fees and expenses, of not more than 0.35% p.a. Additional fees will be charged directly to the investor upon the conditions of the above mentioned agreement. Their smallest tradable unit is 0.001. Unless the Company decides otherwise, the initial issue price of these shares amounts to AUD 100, BRL 400, CAD 100, CHF 100, CZK 2,000, DKK 700, EUR 100, GBP 100, HKD 1,000, JPY 10,000, NOK 900, NZD 100, PLN 500, RMB 1,000, RUB 3,500, SEK 700, SGD 100, USD 100 or ZAR 1,000.

"I-X"

Shares in classes with "I-X" in their name are exclusively reserved for institutional investors within the meaning of Article 174(2)(c) of the Law of 2010 who a) have entered into a written agreement (excluding asset management and investment advisory agreement) with a UBS Group entity for the explicit purpose of investment in the I-X share class of the assets, or b) have entered into a written asset management agreement with a UBS Group entity belonging to the Asset Management Division, or c) have entered into a written asset management agreement with a UBS Group entity provided that such entity has delegated asset management to a UBS Group entity belonging to the Asset Management Division. The costs for asset management, central administration, the Depositary and distribution are charged to investors under the aforementioned agreements. Their smallest tradable unit is 0.001. Unless the Company decides otherwise, the initial issue price of these shares amounts to AUD 100, BRL 400, CAD 100, CHF 100, CZK 2,000, DKK 700, EUR 100, GBP 100, HKD 1,000, JPY 10,000, NOK 900, NZD 100, PLN 500, RMB 1,000, RUB 3,500, SEK 700, SGD 100, USD 100 or ZAR 1,000.

"U-X"

Shares in classes with "U-X" in their name are exclusively reserved for institutional investors within the meaning of Article 174(2)(c) of the Law of 2010 who have signed a written asset management agreement or a written agreement with UBS Asset Management Switzerland AG or one of its authorised contractual partners on investing in one or more Subfunds of the Company. The costs for asset management, central administration, the Depositary and distribution are charged to investors under the aforementioned agreements. This share class is exclusively geared towards financial products (i.e. funds of funds or other pooled structures under various legislative frameworks). Their smallest tradable unit is 0.001. Unless the Company decides otherwise, the initial issue price of these shares amounts to AUD 10,000, BRL 40,000, CAD 10,000, CHF 10,000, CZK 200,000, DKK 70,000, EUR 10,000, GBP 10,000, HKD 100,000, JPY 1 million, NOK 90,000, NZD 10,000, PLN

50,000, RMB 100,000, RUB 350,000, SEK 70,000, SGD 10,000, USD 10,000 or ZAR 100,000.

“A”

Shares in classes with “A” in their name are available to all investors. No distribution fee is charged to shares with “A” in their name. Their smallest tradable unit is 0.001. Unless the Company decides otherwise, the initial issue price of these shares amounts to AUD 100, BRL 400, CAD 100, CHF 100, CZK 2,000, EUR 100, GBP 100, HKD 1,000, JPY 10,000, NOK 900, NZD 100, PLN 500, RMB 1,000, RUB 3,500, SEK 700, SGD 100, USD 100 or ZAR 1,000.

Additional characteristics

Currencies

The share classes may be denominated in AUD, BRL, CAD, CHF, CZK, DKK, EUR, GBP, HKD, JPY, NOK, NZD, PLN, RMB, RUB, SEK, SGD, USD or ZAR. For share classes issued in the currency of account of the Subfund, this currency will not be included in the share class name. The currency of account features in the name of the relevant Subfund.

“PF”

Shares in Classes with “PF” in their name are entitled to pay a performance fee. All such Classes are closed for subscription unless otherwise decided by the Company.

“hedged”

For share classes with “hedged” in their name and with reference currencies different to the Subfund’s currency of account (“classes in foreign currencies”), the risk of fluctuations in the value of the reference currency is hedged against the Subfund’s currency of account. The amount of the hedging shall in principle be between 95% and 105% of the total net assets of the share class in foreign currency. Changes in the market value of the portfolio, as well as subscriptions and redemptions of share classes in foreign currencies, can result in the hedging temporarily surpassing the aforementioned range. The Company and the Investment Manager will take all necessary steps to bring the hedging back within the aforementioned limits. The hedging described has no effect on possible currency risks resulting from investments denominated in a currency other than the Subfund’s currency of account.

“portfolio hedged”

For share classes with “portfolio hedged” in their name, the currency risk of the Subfund’s investments is hedged against the reference currency of the share class as follows: Systematically, between 95% and 105% of the proportion of investments in developed nation foreign currencies relative to the share class’ total net assets is hedged, except where this is unfeasible or not cost-effective. Emerging market foreign currency investments are not hedged. Changes in the market value of the Subfund’s investments, as well as subscriptions and redemptions of share classes, can cause the hedge to temporarily exceed the range specified by the Investment Manager. The Company and the Investment Manager will take all necessary steps to bring the hedging back within the aforementioned limits. The hedging described is used to hedge

the currency risk resulting from investments denominated in a currency other than the share class’ reference currency, as described above.

“BRL hedged”

The Brazilian real (ISO 4217 currency code: BRL) may be subject to exchange control regulations and repatriation limits set by the Brazilian government. Prior to investing in BRL classes, investors should also bear in mind that the availability and tradability of BRL classes, and the conditions under which they may be available or traded, depend to a large extent on the political and regulatory developments in Brazil. The risk of fluctuations is hedged as described above under “hedged”. Potential investors should be aware of the risks of reinvestment, which could arise if the BRL class has to be liquidated early due to political and/or regulatory circumstances. This does not apply to the risk associated with reinvestment due to liquidation of a share class and/or the Subfund in accordance with the section “Liquidation and merger of the Company and its Subfunds; merger of Subfunds”.

“RMB” and “RMB hedged”

Investors should note that the renminbi (“RMB”) (ISO 4217 currency code: CNY), the official currency of the People’s Republic of China (the “PRC”), is traded on two markets, namely as onshore RMB (CNY) in mainland China and offshore RMB (CNH) outside mainland China. For share classes denominated in RMB and/or RMB hedged (the “RMB classes”), the net asset value is calculated in offshore RMB.

Onshore RMB is not a freely convertible currency and is subject to foreign exchange control policies and repatriation and conversion restrictions imposed by the PRC government. Offshore RMB, on the other hand, may be traded freely against other currencies, particularly EUR, CHF and USD.

Convertibility between offshore RMB and onshore RMB is a regulated process subject to foreign exchange control policies and repatriation restrictions imposed by the PRC government in coordination with offshore supervisory and governmental agencies (e.g. the Hong Kong Monetary Authority).

Prior to investing in RMB classes, investors should bear in mind that the requirements relating to regulatory reporting and fund accounting of RMB are not clearly regulated. Furthermore, investors should be aware that offshore RMB and onshore RMB have different exchange rates against other currencies. The value of offshore RMB can potentially differ significantly from that of onshore RMB due to a number of factors including, without limitation, foreign exchange control policies and repatriation restrictions imposed by the PRC government at certain times, as well as other external market forces. Any devaluation of RMB against other currencies could adversely affect the value of investors’ investments in the RMB classes if denominated in another currency. Investors should therefore take these factors into account when calculating the conversion of their investments and the ensuing returns from RMB into their target currency.

Prior to investing in RMB classes, investors should also bear in mind that the availability and tradability of RMB classes, and the conditions under which they may be available or traded, depend to a large extent on the political and regulatory developments in the PRC. Thus, no guarantee can be given that

RMB or the RMB classes will be offered and/or traded in future, nor can there be any guarantee as to the conditions under which RMB and/or RMB classes may be made available or traded. If the currency of account of the relevant Subfunds offering the RMB classes were in a currency other than RMB, the ability of the relevant Subfund to make redemption payments in RMB would be subject to the Subfund's ability to convert its currency of account into RMB, which may be restricted by the availability of RMB or other circumstances beyond the control of the Company.

Potential investors should be aware of the risks of reinvestment, which could arise if the RMB class has to be liquidated early due to political and/or regulatory circumstances. This does not apply to the risk associated with reinvestment due to liquidation of a share class and/or the Subfund in accordance with the section "Liquidation of the Company and its Subfunds; merger of Subfunds". The risk of fluctuations for RMB-hedged share classes is hedged as described above under "hedged".

"acc"

The income of share classes with "-acc" in their name is not distributed unless the Company decides otherwise.

"dist"

The income of share classes with "-dist" in their name is distributed unless the Company decides otherwise.

"qdist"

Shares in classes with "-qdist" in their name may make quarterly distributions, gross of fees and expenses. Distributions may also be made out of the capital (this may include, inter alia, realised and unrealised net gains in net asset value) ("capital"). Distributions out of capital result in the reduction of an investor's original capital invested in the Subfund. Furthermore, any distributions from the income and/or involving the capital result in an immediate reduction of the net asset value per share of the Subfund. Investors in certain countries may be subject to higher tax rates on distributed capital than on any capital gains from the sale of fund units. Some investors may therefore prefer to subscribe to accumulating (-acc) rather than distributing (-dist, -qdist) share classes. Investors may be taxed at a later point in time on income and capital arising on accumulating (-acc) share classes compared with distributing (-dist) share classes. Investors should consult qualified experts for tax advice regarding their individual situation.

"mdist"

Shares in classes with "-mdist" in their name may make monthly distributions, gross of fees and expenses. Distributions may also be made out of capital. Distributions out of capital result in the reduction of an investor's original capital invested in the Subfund. Furthermore, any distributions from the income and/or involving the capital result in an immediate reduction of the net asset value per share of the Subfund. Investors in certain countries may be subject to higher tax rates on distributed capital than on any capital gains from the sale of fund units. Some investors may therefore prefer to invest in accumulating (-acc) rather than distributing (-dist, -mdist) share classes. Investors may be taxed at a later point in time on income and capital arising on accumulating (-acc) share classes compared with distributing (-dist) share classes. Investors should consult

qualified experts for tax advice regarding their individual situation. The maximum entry costs for shares in classes with "-mdist" in their name are 6%.

"UKdist"

The aforementioned share classes can be issued as those with "UKdist" in their name. In these cases, the Company intends to distribute a sum that corresponds to 100% of the reportable income within the meaning of the UK reporting fund rules when the share classes are subject to these reporting fund rules. The Company does not intend to make taxable values for these share classes available in other countries, as they are intended for investors whose investment in the share class is liable to tax in the UK.

"2%", "4%", "6%", "8%"

Shares in classes with "2%" / "4%" / "6%" / "8%" in their name may make monthly (-mdist), quarterly (-qdist) or annual (-dist) distributions at the respective aforementioned annual percentage rates, gross of fees and expenses. The distribution amount is calculated based on the net asset value of the respective share class at the end of the month (in the case of monthly distributions), financial quarter (in the case of quarterly distributions) or financial year (in the case of annual distributions). These share classes are suitable for investors who wish for more stable distributions, unrelated to past or expected returns or income of the relevant Subfund.

Distributions may thus also be made from the capital.

Distributions out of capital result in the reduction of an investor's original capital invested in the Subfund. Furthermore, any distributions from the income and/or involving the capital result in an immediate reduction of the net asset value per share of the Subfund. Investors in certain countries may be subject to higher tax rates on distributed capital than on any capital gains from the sale of fund units. Some investors may therefore choose to invest in the accumulating (-acc) instead of the distributing (-dist, -qdist, -mdist) share classes. Investors may be taxed at a later point in time on income and capital arising on accumulating (-acc) share classes compared with distributing (-dist, -qdist, -mdist) share classes. Investors should consult qualified experts for tax advice regarding their individual situation.

"seeding"

Shares with "seeding" in their name are only offered for a limited period of time. At the end of this period, no further subscriptions are permitted unless the Company decides otherwise. However, shares can still be redeemed in accordance with the conditions for share redemptions. Unless otherwise decided by the Company, the smallest tradeable unit, the initial issue price and the minimum subscription amount shall correspond to the characteristics of the share classes listed above.

Notes

Note 1 – Summary of significant accounting policies

The financial statements have been prepared in accordance with the generally accepted accounting principles for investment funds in Luxembourg.

The financial statements are prepared in accordance with Luxembourg legal and regulatory requirements relating to investment funds under the going concern basis of accounting except for subfund UBS (Lux) Climate Solutions Equity Fund that is prepared on a non-going concern basis.

The significant accounting policies are summarised as follows:

a) Computation of the net asset value of each subfund

The net asset value of the Shares of each subfund shall be calculated in the reference currency of the respective subfund and shall be determined under the responsibility of the Company's Board of Directors in Luxembourg on each banking day in Luxembourg (each such day being referred to as a "Valuation Day"). A banking day is defined as being a day on which banks are normally open for business in Luxembourg.

For the active subfunds, the Net Asset Value calculated will be increased by up to a maximum of 2% per Share in the event of a net surplus of subscription applications or reduced by up to a maximum of 2% per Share in the event of a net surplus of redemption applications in respect of the applications received on the respective Valuation Day. The effective date for the introduction of the Net Asset Value adjustment mechanism (Single Swing Pricing) was as of 1 January 2012.

The NAV per share as disclosed in the statistical information is the published NAV per share whereas the total net assets disclosed in the statement of net assets is the total net asset value excluding period end swing adjustment.

For all subfunds the Swing Pricing methodology is applied. If there were Swing Pricing adjustments to the net asset value at the end of the year, this can be seen from the Three-year comparison of the net asset value information of the subfunds. The issue and redemption price per unit represents the adjusted net asset value.

As per 30 November 2025 no swing pricing was applied.

b) Valuation of investment securities of each subfund

Securities which are listed or regularly traded on a stock exchange shall be valued at the last available market price.

If a security is traded on several stock exchanges, the valuation shall be made by reference to the exchange on which the security is chiefly traded.

In the case of securities for which trading on a stock exchange is not significant whereas a secondary market with regulated trading among securities dealers does exist (with the effect that the price is set on a market basis), the valuation may be based on this secondary market.

Securities traded on a regulated market shall be valued in the same way as securities listed on a stock exchange.

Securities that are neither listed on a stock exchange nor traded on a regulated market shall be valued at their last available market price. If no such price is available, the Company shall value these securities in accordance with other criteria to be established by the Board of Directors and on the basis of the probable sales price, the value of which shall be estimated with due care and in good faith.

Units or shares of UCITS or other UCIs shall be valued on the basis of their most recently calculated Net Asset Value, where necessary by taking due account of the redemption fee. Where no Net Asset Value and only buy and sell prices are available for units or shares of UCITS or other UCI, the units or shares of such UCITS or other UCIs may be valued at the mean of such buy and sell prices. Certain units or shares of UCITS and/or UCIs may be valued based on estimates of their value from reliable service providers that are independent from the target fund portfolio manager or investment adviser (value estimation).

Fiduciary and fixed-term deposits shall be valued at their respective nominal value plus accrued interest.

If a valuation in accordance with the above rules is rendered impossible or incorrect owing to special or changed circumstances, then the Company's Board of Directors shall be entitled to use other generally recognized and auditable valuation principles in order to value the subfund's assets. In exceptional circumstances, further valuations may be carried out on the same day; such valuations will be valid for any applications for purchase and/or redemption subsequently received.

c) Cash at banks and at brokers

Cash at banks and at brokers includes cash in hand, margin calls and deposits held at call with banks.

d) Net realised gain/loss on sales of investments of each subfund

The realised gains or losses on the sales of securities are calculated on the basis of the average acquisition cost.

e) Foreign exchange conversion

The financial statements are kept in the reference currency of each subfund and the combined financial statements are kept in CHF.

Cash at banks, other net assets and the value of portfolio securities in currencies other than the reference currency of each subfund are converted into the reference currency at the foreign exchange rate prevailing on the date of valuation.

Income and expenses in currencies other than the reference currency of each subfund are converted into the reference currency at the foreign exchange rate applicable at the date they accrue to the subfund.

Realised gains or losses on foreign currencies are accounted for in the statement of operations and the statement of changes in net assets.

The acquisition cost of securities in currencies other than the reference currency of each subfund is converted into the reference currency at the foreign exchange rate valid at the date of acquisition.

f) Transactions on investments in securities of each subfund

The transactions on investments in securities are booked on a trade date basis.

g) Valuation of financial futures contracts of each subfund

Unmatured financial futures contracts are valued at valuation date at market prices prevailing at this date and resulting unrealised gains or losses are posted to the statement of operations and the statement of changes in net assets and are shown under unrealised gain/loss on financial future contracts in the statement of net assets. Realised gains or losses are also posted to the statement of operations and the statement of changes in net assets under "Net realised gain (loss) on financial futures contracts".

h) Valuation of forward foreign exchange contracts of each subfund

Unmatured forward foreign exchange contracts are valued at valuation date at forward exchange rates prevailing at this date and resulting unrealised gains or losses are posted to the statement of operations and the statement of changes in net assets and are shown under unrealised gain/loss on forward foreign exchange contracts in the statement of net assets. Realised gains or losses are also posted to the statement of operations and the statement of changes in net assets under "Net realised gain (loss) on forward foreign exchange contracts".

i) Valuation of swaps

On each valuation day, swap agreements are valued at the net present value of the future cash flows, using the relevant interest rate yield curve on valuation day. For the valuation of excess return swaps, the relevant underlying is taken into account. The resulting unrealised gains or losses are shown under unrealised gain/loss on swap contracts in the statement of net assets. Realised gains or losses are also posted to the statement of operations and the statement of changes in net assets under "Net realised gain (loss) on swap contracts".

j) Valuation of contract for differences of each subfund

Unmatured contracts for difference are valued at valuation date at market prices prevailing at this date and resulting unrealised gains or losses are posted to the statement of operations and the statement of changes in net assets under "Change in net unrealised appreciation (depreciation) on financial futures contracts" and are shown under unrealised gain/loss on financial future contracts in the statement of net assets. Realised gains or losses are also posted to the statement of

operations and the statement of changes in net assets under "Net realised gain (loss) on financial futures contracts".

k) Valuation of option contracts of each subfund

Premiums received on issued options are recorded as liabilities and premiums paid on the purchase of options are recorded as assets in the statement of net assets.

Option contracts outstanding on the reporting date are valued at the last settlement or close price on the stock exchanges or regulated markets. Realised and unrealised gains or losses are recorded in the statement of operations and the statement of changes in net assets under "Net realised gain (loss) on sales of investments" and Change in net unrealised appreciation (depreciation) on investments.

l) Allocation of accrued expenses

Accrued expenses which can be allocated directly to a subfund are charged to the subfund. Accrued expenses which cannot be allocated directly are divided among the subfunds in proportion to the net assets of each subfund.

m) Securities Lending

The Company can practise lending of securities included in its portfolios of its subfunds. The Company may only lend securities within a standardized system of securities lending organised by a recognised institution of securities compensation or by first class financial institutions specialised in this type of operations.

n) Income recognition

Dividends are recorded on ex-dividend date, net of withholding tax. Interests are accrued on a daily basis.

o) Other income

The trailer commissions received during the period are accounted under "Other income".

p) Combined financial statements

The combined financial statements are expressed in CHF. The various items of the combined statement of net assets, combined statement of operations and the combined statement of changes in net assets as of 30 September 2025 are equal to the sum of the corresponding items in the financial statements of each subfund.

The following exchange rates were used for the conversion of foreign combined financial statements as of 30 November 2025:

Exchange rates

CHF 1 = EUR 1.073077

CHF 1 = USD 1.245359

CHF 1 = JPY 194.338234

For the liquidated or merged subfunds, the exchange rate used for the conversion of the combined financial statements is the one as at liquidation or merger date.

Note 2 – Management fee

As remuneration for its services and reimbursement of its expenses, the Management Company is entitled to a monthly management fee, payable at the end of each month and calculated on the basis of the average of the daily net asset value of the relevant share class during that month.

Class DA, DAH, DB, DBH and I-B Shares are not subject to a management fee but only to a management service fee, payable to the Management Company covering all fees and expenses excluding the fees payable to the Depositary Bank, of not more than 0.35% p.a.

Class DAP, DAHP, DBP and DBHP Shares are not subject to a management fee but only to a management service fee, payable to the Management Company covering all fees and expenses excluding the fees payable to the Depositary Bank, of not more than 0.35% p.a., and a performance fee, payable to the Management Company.

Note 3 – Taxe d'abonnement

Under the prevailing laws and regulations, the Company is subject in Luxembourg, on the basis of its investments, to a "taxe d'abonnement" at the annual rate of 0.05%, payable quarterly and calculated on the basis of the net assets of each subfund at the end of each quarter. In the case of Share Classes that may only be acquired by institutional investors, this annual tax rate is 0.01%.

The portion of net assets, which is invested in other undertakings for collective investment in securities under Luxembourg law, is exempt from this tax.

Note 4 – Performance fee

In addition to the Management fees, the following Subfunds are subject to a fee linked to the performance of the assets that the relevant Investment Manager is managing ("Performance Fee"):

UBS (Lux) Climate Solutions Equity Fund
 UBS (Lux) European Entrepreneur Equity Fund
 UBS (Lux) European Small and Mid Cap Equity Long Short Fund
 UBS (Lux) Thematic Opportunities Equity Fund

Below the detailed calculation method of the performance fees for UBS (Lux) Climate Solutions Equity Fund, UBS (Lux) European Entrepreneur Equity Fund, UBS (Lux) Thematic Opportunities Equity Fund:

The Management Company is entitled to a Performance Fee for the Subfund, which is calculated daily ("Computation Frequency") on the basis of the unswung net asset value before performance fee accrual for the relevant Valuation Day of the Share Class concerned ("Calculation Date"). The relative high watermark principle is adopted for the calculation of the performance fee, meaning that any underperformance incurred by the relevant Share Class of the Subfund against its benchmark during the performance reference period of 5 years ("Reference Period") must be recovered before a Performance Fee becomes payable, it being understood that performance fees may be payable during the reference period of 5 years and/or in the first years of a Subfund's existence, in case the relevant Share Class of the Subfund has not existed for 5 years or after a reset of the high watermark (having an equivalent

impact on the handling of the reference period as a new launch).

The Performance Fee shall be payable (i.e., crystallised) on an annual basis. The Crystallisation Period will end on May 31st (with the first Crystallisation Period being potentially longer than 12 months while starting with the launch of the Subfund or the relevant Share Class and lasting at least 12 months).

The calculation of the Performance Fee and the necessary provisioning take place with every Net Asset Value calculation. The accrued Performance Fee shall be payable annually in arrears within one month after the end of the respective Crystallisation Period, and, if Shares are redeemed during the Crystallisation Period, the amount of Performance Fee included in the Net Asset Value per Share will be due and owed (i.e. crystallized) for these redeemed Shares in due proportion on the date of the Shareholder's redemption.

If, on the Calculation Date, the net performance of the unswung net asset value of a Share Class (net of all costs) is above the benchmark performance, a Performance Fee of 15% for all Share Classes shall be deducted on the difference between the performance of the unswung net asset value of the relevant Share Class and the performance of the benchmark (i.e. relative value) over the same Crystallisation Period, provided that such difference exceeds the sum of any yearly underperformances against the benchmark during the performance reference period of up to 5 years (or less in case the relevant Share Class of the Subfund has not existed for 5 years or after a reset of the high watermark). The Performance Fee is calculated on the basis of the Shares of the relevant Share Class that are in circulation during the Crystallisation Period whereas the effect of new subscriptions is neutralized. The new subscriptions will therefore only be impacted by the Performance Fee after they contributed to the performance of the relevant Share Class.

UBS (Lux) European Small and Mid Cap Equity Long Short Fund:

The Management Company is entitled to a performance fee for the Subfund which is calculated daily ("Computation Frequency") on the basis of the unswung Net Asset Value of the Share Class concerned.

The performance fee is calculated with each unswung Net Asset Value. The necessary provisions are made accordingly.

A performance fee may only be levied if, on the Valuation Day following a Trading Day, the unswung Net Asset Value of a Share Class on a Trading Day used in the calculation of the performance fee exceeds all the unswung Net Asset Values previously achieved on a Trading Day ("high watermark"). The high water mark will never be reset throughout the life of the Subfund, meaning that the performance reference period corresponds to the whole life of the Subfund.

If, on the Valuation Date following a Trading Day, the unswung Net Asset Value (prior to deduction of the performance fee and net of all costs) of a Share Class is greater than the preceding unswung Net Asset Values (prior to deduction of the

performance fee) applicable to the previous Trading Days, a performance fee of 20% shall be deducted on the difference between the unswung Net Asset Value of the Share Class on the Valuation Day following the Trading Day and the high water mark. Calculation of the performance fee takes place on the basis of the Shares of the relevant Class that are currently in circulation. New subscriptions do not affect the provisioned performance fee amount.

No performance fee was charged during the period end.

Note 5 – Income distribution

The Board of Directors is entitled to determine the payment of dividends and decides to what extent distributions are to be made from the net investment income attributable to each distributing Share Class of the subfund in question. In addition, gains made on the sale of assets belonging to the subfund may be distributed to investors. Further distributions

may be made from the Subfund's assets in order to achieve an appropriate distribution ratio. Distributions may be declared on an annual basis or at any intervals to be specified by the Board of Directors.

Note 6 – Total Expense Ratio (TER)

This ratio was calculated in accordance with the Asset Management Association Switzerland (AMAS) "Guidelines on the calculation and disclosure of the TER" in the current version and expresses the sum of all costs and commissions charged on an ongoing basis to the net assets (operating expenses) taken retrospectively as a percentage of the net assets.

If a Subfund invests at least 10% of its net assets as a fund of fund in target funds, a composite TER of the fund of funds is to be calculated as follows: The prorated TER of the individual target funds including a performance related remuneration, weighted according to the share they represent in the overall assets of the fund of funds as of the closing date and the TER of the fund of funds minus the retroceded commissions received from the target funds during the reporting period.

No TER is disclosed for shares classes/Subfunds liquidated during the reporting period.

Note 7 – Commitments on Financial Futures, Options and Synthetic Equity Swaps

Commitments on Financial Futures, Options and Synthetic Equity Swaps per subfund and respective currency as of 30 November 2025 can be summarised as follows:

a) Financial Futures

CS Investment Funds 2	Financial Futures on Indices (bought)	Financial Futures on Indices (sold)
UBS (Lux) European Small and Mid Cap Equity Long Short Fund	0.00	10 860 240.00

The commitments on Financial Futures on bonds or index (if any) are calculated based on the market value of the Financial Futures (Number of contracts*notional contract size*market price of the futures).

b) Contracts for difference

CS Investment Funds 2	Financial Futures on Indices (bought)	Financial Futures on Indices (sold)
UBS (Lux) European Small and Mid Cap Equity Long Short Fund	0.00	21 720 480.00

The commitments on Contracts for difference (if any) are calculated based on the market value of the Contracts for difference (Number of contracts*market price of the underlying).

Note 8 – Transaction costs

Transactions costs include brokerage fees, stamp duty, local taxes and other foreign charges if incurred during the period. Transaction costs are included in the cost of securities purchased and sold.

For the period ended on 30 November 2025, the Company incurred transaction costs relating to purchase or sale of investments in securities and similar transactions, (including derivatives instruments or other eligible assets) as follows:

CS Investment Funds 2	Transaction costs
- UBS (Lux) AI and Robotics Equity Fund	631 170.53 USD

Note 13 – Subsequent event

The Board of Directors has decided to merge the Sub-Fund CS Investment Funds 2 - UBS (Lux) - European Small and Mid Cap

Equity Long Short Fund into UBS (Lux) Equity SICAV - European Opportunity Unconstrained (EUR) with effective date 16 December 2025.

Note 14 – Applicable law, place of performance and authoritative language

The Luxembourg District Court is the place of performance for all legal disputes between the shareholders, the company and the Depositary. Luxembourg law applies. However, in matters concerning the claims of investors from other countries, the company and/or the Depositary can elect to make themselves subject to the jurisdiction of the countries in which company shares were bought and sold.

The English version of these financial statements is the authoritative version and only this version was audited by the auditor. However, in the case of company shares sold to investors from the other countries in which company shares can be bought and sold, the company and the Depositary may recognize approved translations (i.e. approved by the company) into the languages concerned as binding upon itself.

Notes

Note 15 – OTC-Derivatives and Securities Lending

If the Company enters into OTC transactions, it may be exposed to risks related to the creditworthiness of the OTC counterparties: when the Company enters into futures contracts, options and swap transactions or uses other derivative techniques it is subject to the risk that an OTC counterparty may not meet (or cannot meet) its obligations under a specific or multiple contracts. Counterparty risk can be reduced by depositing a security. If the Company is owed a security pursuant to an applicable agreement, such security shall be held in custody by the Depositary in favour of the Company. Bankruptcy and insolvency events or other credit events with the OTC counterparty, the Depositary or within their subdepository/correspondent bank network may result in the rights or recognition of the Company in connection with the security to be delayed, restricted or even eliminated, which would force the Company to fulfill its obligations in the framework of the OTC transaction, in spite of any security that had previously been made available to cover any such obligation.

The Company may lend portions of its securities portfolio to third parties. In general, lendings may only be effected via recognized clearing houses such as Clearstream International or Euroclear, or through the intermediary of prime financial institutions that specialise in such activities and in the modus specified by them. Collateral is received in relation to securities lent. Collateral is composed of high quality securities in an amount typically at least equal to the market value of the securities loaned.

UBS Europe SE, Luxembourg Branch, acts as securities lending agent.

Risk management

Risk management in accordance with the commitment approach and the value-at-risk approach is applied pursuant to the applicable laws and regulatory provisions.

Leverage

Leverage is defined pursuant to the applicable ESMA directives as the total of the notional values of the derivatives used by the respective subfund. According to this definition, leverage may result in artificially increased leverage amounts, as some derivatives that can be used for hedging purposes may be included in the calculation. Consequently, this information does not necessarily reflect the precise actual leverage risk that the investor is exposed to.

Data on income and expense for each type of SFT

All expenses relating to the execution of securities lending transactions and their collateralization are borne by the counterparties and the depositary.

Service providers that provide services to the Company in the field of securities lending have the right to receive a fee in return for their services that is in line with the market standards. The amount of this fee will be reviewed and adapted, where appropriate, on an annual basis. Currently, UBS Switzerland AG, the securities lending service provider, is responsible for the ongoing securities lending activities and collateral management, and UBS Europe SE, Luxembourg Branch, the securities lending agent, responsible for the transactions management, ongoing operational activities and collateral safekeeping. They first deduct from gross revenues a cost component of 6 bps p.a., calculated on the value of the lent securities (4.5 bps of such cost component to the relevant subfund, while 15% of the gross revenue are retained as fees by UBS Switzerland AG, and 5% of the gross revenue are retained as fees by UBS Europe SE, Luxembourg Branch. All fees for operating the securities lending program are paid from the securities lending agent's portion of the gross income. This covers all direct and indirect costs incurred through securities lending activities. UBS Europe SE, Luxembourg Branch and UBS Switzerland AG are part of the UBS Group.
